SUBJECT:

THE WITNESSING OF THE POLICE AND PUBLIC DEFENDANTS CONCERNING ITALIAN CITIZENS PAPERLESS LIKE ILLEGAL IMMIGRANTS, TORMENTED WITH REPEATED FALSE ACCUSATIONS AND PREVENTED FROM INDEPENDENT LEGAL REPRESENTATION. THIS IS A LAWSUIT FOR REPEATED FALSE ARREST, TORTURE AND SLAVERY DOCUMENTED BY POLICE, PUBLIC DEFENDANTS AND PUBLIC OFFICERS.

Dear EU Commissioner Ms Mairead McGuinness

I am writing to you concerning the WITNESSING and REPORTS of the POLICE and PUBLIC DEFENDANTS, for the repeated false accusations against Italian Citizens, paperless and prevented from the rights to hire an independent lawyer. I underline the Police every time had to dismiss the false accusations as unsubstantiated fabrications.

Concerning this situation EU-OLAF in 2005 has sent my lawsuit to the Court in Milan, concerning the freedom of movement, freedom of enterprise, but also concerning the Monopoly and competition (please find the letter of the President of the Italian Republic concerning "Monopoly and Competition"). But the Prosecutor in Milan had the insolence to pretend "it has never happened", despite of the letters of the Italian consul and the witnesses. It was also in the news.

Almost two years after EU OLAF sent my lawsuit to Italy, MP Bill Rammell of the office of PM Tony Blair sent me a letter informing "it was an Italian Private Matter" if Italian People are paperless in the UK. As you can see, after that I was arrested with repeated false accusations the

Police had to dismiss every time as unsubstantiated, if those accusations were not clear evidences of slander and defamation tormenting the victims already prevented from independent legal representation and reduced into slavery.

You can find all of this in the Reports of the Police and the Public Defendants, on my website, in the APPENDIX of the book I wrote about this situation.

And since "they" also had the insolence to pretend I wouldn't be able to distinguish good and evil, just to slander the victims more and more with their alternative system of values, after EU sent lawsuit to Italy, you can find in attach the audio recording of Dissanayaka concerning these false accusations too, as evidence of more slander and more defamation against Italian Citizens, imposed to be the impostors despite they are not, and prevented from the rights to hire independent legal representation.

Concerning the PhD offer, I already had a sponsor and important customers as NHS Canada and NHS Australia when the registration procedure was aborted, because both my passport and my university degree have become unavailable, couldn't find confirmation and the Consul couldn't provide any assistance, not different from making me paperless and look like an impostor.

I demand Justice for the civil rights violations and for the POLITICAL COVER UP, after EU sent lawsuit to Italy. Because I was intentionally prevented from the right to hire an independent lawyer, and the police, public defendants and public officers well reported the situation of abuses and violations from the start.

I demand Justice for MORAL TORTURE, as I am still today imposed to be the impostor without being the impostor, but the scapegoat, the cover up for their alternative system of values.

I demand Justice for MORAL and PHYSICAL TORTURE, because of violence and coercion, repeated false arrests, and for being prevented from legal representation in order to prosecute the masterminds of these false accusations, while the Police and Public defendants were witnessing and reporting the abuses I was complaining and now reporting to you.

In conclusion, in 2016 I published a book concerning the differences between the Nazi racial laws and the Fascist racial laws, because in the school books there is no mention of the Fascist racial laws. Could you tell why? In what system of value would you tolerate the bribery, blackmail, false arrests, false accusations and witch hunting, and then more violence and coercion preventing the victims from independent legal representation, meanwhile the police and Public defendants report the situation of intentional abuses?

Could you tell what system of values and what political reasons can justify all of this as good intentions, in the respect of any democratic value different from lynching people?

Is democracy the rights to gather into a group and do whatever please them, or the rights of the people to have a lawyer and have their rights respected as stated by the law?

If nobody is able to tell how the democratic values have become catholic legacy, without having to quote the racial laws of Mussolini, it doesn't make me unable to distinguish good and evil. But I wonder if they could distinguish good and evil, vanishing people's passport and university degrees, and pretending from the victims to conform to their holy will. The very same reasons the Vatican was terminated, and it took a dictatorship to restore it as symbol of democracy, people rights and freedoms.

Sincerely
Luca Benatti

For the Attention of

Solicitors Ison Harrison

Dear Solicitors Ison Harrison

I have been suggested to contact you concerning this legal matter, after EUSS Office contacted the advisor Ailsa McLaughlin and she gave me this advice.

Sometime before I contacted the Citizen Advice Bureau, and I was suggested to contact the MPs. I contacted both MP Rachel Reeves and MP Stuart Andrew, but couldn't have an answer.

Nevertheless, I like to report the witnessing of the Police and Public Defendants concerning repeated false accusations against EU Citizens prevented from the rights to hire a lawyer and are reduced into slavery.

I like to report concerning the assistance of the Consulate, in making me paperless like an illegal immigrant and look like an impostor despite I am not, just to cover up bribery and blackmail with more abuses, this time with witnessing of the Police and Public Defendants.

The European Union OLAF has sent a lawsuit to Italy concerning this matter, because of the factual indisputable evidences, and now I jump to conclusions with you when I wonder in what system of values MP Bill Rammel of the Office of PM Tony Blair could pretend it was "an Italian private matter". I wonder it was rather a cover up, after EU sent lawsuit to Italy and after it was in the news.

The documents I mention are on my website, in fact concerning this situation I wrote a book. Mostly because I don't like to be the impostor as I am not, and because I don't like to be the cover up for such a perverts and tormentors, or their alternative system of values.

In order to better understand, to introduce the subject to you, I wonder in what system of values some people have the recommendations of the bishop for diplomas and degrees they never had, like Giulio Regeni, and also have the rights to feel honest with it, while the other cannot have confirmation confirmation of their true academic career from state universities, become impostor and counterfeiters despite they are not, and are tormented and persecuted as terrorists for their pretence to have rights not to be the impostors and not to be paperless.

I like to know if it is because they are Negroes that Dr Buller and Dr Dissanayaka are not as good and reliable, not as much as the false accusations of the Flannigan and Tony Blair almost two years after the happenings.

I like to know in what system of value in Yorkshire you cannot tell a Negro he is a Negro, despite he is a Negro in evidence (the cricket player scandal), but you can make Italian people paperless like illegal immigrants, prevent the victims from legal representation and pretend the

victims are impostor and counterfeiters even if they are not, with violence and coercion and false accusations, after EU sent lawsuit to Italy.

Was it because a Negro witnessed in writing that I was not the problem, but the Consulate was of no help more than making me paperless, and I was prevented from travelling and the rights to hire a lawyer and wanted to address the problems they were causing?

I wonder how the false accusations two years after the happenings could be more reliable and honest than the reports of the police and public defendants and public officers witnessing the facts at the time of the happenings, and then again later the police, public defendants and Dissanayaka witnessing the false accusations of the Flannigan and associates.

I like to underline the police had to dismiss every time these false accusations as unsubstantiated, and I like to report it as slander and defamation and political cover up.

And since they had the insolence to offend my ability to distinguish good and evil, I like to return the test with more witnesses and evidences against their false accusations and their racist attacks, slander, defamation and political cover ups.

But, if you could find someone of your best professors in England who is able to tell one democratic value that it has been a catholic value in History, I would be pleased to reward this person with £200.000 AWARD. And I would reward them also if they could tell how the democratic values have become catholic legacy, without having to quote the racial laws of Mussolini.

In fact the democratic values are the result of the emancipation from the absolute power of the church, and especially the secular value of Justice, especially the emancipation from the divine Justice is the exact reason the ancient Romans used to call the Christians with the name of uncivilized barbarians

I am not the impostor, but your Highest standard from your best Universities is documenting very well a population unable to answer the most simple questions concerning the democratic values, and this is not compatible with the rule of the law of any civil society.

I demand justice for racist hate crimes and moral torture, for imposing on me to be the impostor despite I am not, and especially after EU sent lawsuit to Italy, just to cover up the alternative system of values doing "miracles" with passports, university degrees and people rights.

I demand justice for repeated false accusations, and for the illegal detention

Please find in attachment the audio recording of Dissanayaka, and try to find a reasonable explanation for the "intolerable way to have to live". Alternatively, ask yourself what part of it was legal, and what rights I ever had, accordingly to the civil rights agreement signed up by Tony Blair to the EU sometime before I arrived.

Sincerely
Luca Benatti

Avvocato Eugenio Fusco

Gentile Avvocato Eugenio Losco

Spero che l'Inglese scritto in fretta non le sia di troppo disturbo, ma posso produrre una traduzione qualora fosse necessario.

Dear Lawyer Eugenio Losco,

concerning Ilaria Salis I can assure you she is not the only one betrayed by the Italian Consulates, and the alternative system of values of their mission.

Above all I like to make very clear I am not anti-fascist or anti anything.

I am just a democrat trying to be as democrat as possible, and to demonstrate my genuine and sincere intention I organised an AWARD, in order to understand who is the impostor, and what is the system of value in discussion, if it was conforming to any democratic values.

I liked my civil rights to have passport replacement after the theft of my passport, the rights to travel, the rights to hire a lawyer if needed, the rights to have the confirmation of my university degree and not to have to look like an impostor, and the civil rights to organize my opportunities in autonomy. But apparently it doesn't work this way.

There are obscure forces between "having a university degree", and having "the confirmation of that university degree", and the difference is made in the "black box" of the systems of values in between. As consequence some people have the recommendations of the bishop for diplomas and degrees they never had, and have the rights to feel honest with it, while some other cannot have confirmation of their true academic career from state university, become paperless like illegal immigrant and are forced with coercion to look like impostors, and are persecuted as terrorists for their pretence to have rights not to be the impostors.

I am not the impostor, and I am not willing to be the impostor in order to cover up the alternative system of value of the mafia in the "black box". But eventually I could organize \$200.000 AWARD, with my flat in the city centre in Milan as guarantee, to reward whoever was able to tell how the democratic values have become catholic legacy, without having to quote the racial laws of Mussolini.

This subject in Italy is know as "la questione morale" (the moral matter), and I would like to know in what system of value I would be a terrorist for pretending the rights not to be the impostor. What is this, vanishing of people into thin air? The green evolution of the Nazi chimney?

In conclusion, I have no passport since the begin of times, I am here to look like an impostor, hostage of their pervert conscience, as a votive act to the catholic democratic values of Mussolini. How does it sound to you, in the legal system of value?

Dissanayaka asked my if I was abducted. I ask you concerning the witnessing of the Police and Public defendants in England, and concerning the assistance I ever had from the Consulate making me paperless and to look like an impostor.

Sinceramente
Luca Benatti
